SUMMARY

B.Tech graduate and AI Engineer with hands-on experience building multi-agent systems, Retrieval-Augmented Generation (RAG) pipelines, and Large Language Model (LLM) guardrails using Python, FastAPI, and Docker. Active contributor in Software Incubator, Programming Club, and Cloud Computing Club at AKGEC. Oracle GenAI and Data Science certified. Open to AI/Machine Learning/Backend Engineering roles.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, Bash

AI / ML: Large Language Models (LLaMA 3, GPT), Retrieval-Augmented Generation (RAG), Multi-Agent Orchestration, Prompt Engineering, Guardrails, Sentence-Transformers

Frameworks: FastAPI, Pytest, ChromaDB (Vector Database), GSAP, Three.js, scikit-learn

Cloud / DevOps: Docker, Kubernetes, AWS (EC2, S3), Oracle Cloud (OCI), CI/CD Pipelines, GitHub Actions

Tools: Git, REST APIs, JSON Schema Validation, Server-Sent Events (SSE)

PROFESSIONAL EXPERIENCE

Technical Member - Software Incubator

Ajay Kumar Garg Engineering College (AKGEC) | Jan 2026 - Present

- Built a 4-agent DevOps swarm using ReAct loops and LLaMA 3 for autonomous CI/CD remediation.
- Reduced mean-time-to-recovery by 90% across 50+ pipeline failure test scenarios.
- Achieved 85% first-pass fix accuracy with sandboxed Pytest verification before PR submission.
- Developed a compliance agent with guardrails blocking 100% of prompt injection attempts.

Core Member - Programming Club

Ajay Kumar Garg Engineering College (AKGEC) | Aug 2024 - Dec 2025

- Architected a RAG pipeline ingesting large-scale PDFs with 94% retrieval accuracy via ChromaDB.
- Reduced LLM hallucination by 78% using source-grounded generation and citation tracking.
- Exposed 3 FastAPI REST endpoints (/upload, /search, /documents) for production use.
- Mentored 15+ juniors on Python, Git workflows, and API development best practices.

Member - Cloud Computing Club

Ajay Kumar Garg Engineering College (AKGEC) | Aug 2023 - Jul 2024

- Deployed containerized AI microservices using Docker and Kubernetes on AWS and OCI.
- Configured CI/CD pipelines with GitHub Actions for automated testing and deployment.
- Earned Oracle GenAI and Oracle Data Science professional certifications during tenure.

PROJECTS

AI Code Reviewer

Python, FastAPI, GitHub REST API, Groq

- Analyzed 100+ GitHub PRs via LLM, detecting 3.2 issues per review missed by static analysis.
- Enforced strict JSON schema output for structured bug and vulnerability reporting.

Meeting Intelligence System

Python, FastAPI, Groq

- Processed 60-minute transcripts in under 8 seconds with 96% extraction accuracy.
- Generated structured summaries, action items, and follow-up emails automatically.

Document Risk Prediction (ML)

scikit-learn, pandas, Random Forest

- Built a supervised ML pipeline classifying document risk with tuned hyperparameters.

- Compared 4 model architectures and serialized the best performer for production deployment.

EDUCATION

Ajay Kumar Garg Engineering College (AKGEC)

B. Tech in Electronics and Communication Engineering | AKTU | Aug 2022 - May 2026 | CGPA: 7.9

CERTIFICATIONS

- Oracle GenAI Certified Professional (2025)
- Oracle Data Science Professional Certification (2025)
- IoT and Industrial Automation Certification (2025)
